PROFILE INFO

WordPress & Shopify Developer with 3+ years' experience (since Feb 2023) architecting and delivering 50+ live client websites end-to-end. Builds lightweight, high-performance sites using custom child themes, plugin-free PHP templates, and custom plugins rather than bloated add-ons. Layers custom HTML/CSS/JS, scroll animations, and AI-assisted jQuery on top of Elementor Pro and Shopify (Liquid). Proven record in end-to-end hosting, SEO, payment integrations, and speed optimization

PLUGINS DEVELOPED

Revisit Plugin:

Engineered a custom digital stamp collector and loyalty plugin for restaurants to manage customer offers.

Menu Manager:

Built a bespoke plugin to streamline digital cataloging and updates for hospitality clients.

WORK EXPERIENCE

Digi Daftar

2023 - PRESENT

Web Developer

- Engineered high-performance scroll-driven animations using optimized image sequences, ensuring smooth frame-by-frame playback and superior mobile performance.
- Built custom PHP templates and scalable child themes from scratch, including customized mega menus, dynamic headers, and responsive footers, reducing reliance on plugins like ACF/CPT UI.
- Delivered and maintained 50+ live client websites end-to-end, managing staging, deployment, migrations, hosting (hPanel, cPanel, AWS), and performance tuning.
- Utilized AI-assisted workflows to rapidly develop and implement custom jQuery and JavaScript for complex interactive elements without bloated page-builder add-ons.
- Applied rigorous WordPress security hardening, including malware detection, migrations, custom login URLs, source-code protection, and overall site security.

FEATURED PROJECTS

- **beyoutify.shop (Skincare)** : Shopify, Built a dynamic Shopify store, integrating custom shoppable video reels to drive interactive product discovery.
- **Theyagni.in (Athleisure)** : Shopify, Developed a dark-themed e-commerce storefront. Integrated a smart AI chat agent for real-time suggestions and quick-buy workflows..
